XII. Support from Grants and Contracts

Currently Funded Grants and Contracts

“Regional Networks for Healthcare Worker Wellness”

Principal Investigator, Colorado Department of Public Health and Environment, 1/15/2023-6/30/2024, 15% effort, \$750,000

BHWP is addressing statewide healthcare workers’ wellness and retention, with a focus on rural, frontier, and mountain areas. Through a work and well-being webinar series, we provide synchronous and asynchronous learning opportunities for all healthcare workers. Concurrently, we work with healthcare organizations in specific regions to create peer wellness networks to support evidence-based training and health systems change. Regional wellness champions participate in communities of practice (CoPs), which are monthly peer-to-peer learning environments. As an additional component of CoPs, BHWP is providing consultation to healthcare organizations’ senior leadership on creating and sustaining a culture of employee wellness. Moreover, BHWP is reviewing technological supports for wellness initiatives and providing recommendations to the state on utilizing technological wellness innovations.

“Health System Change Community of Practice” contract DH230051621

Principal Investigator, Missouri Department of Health and Senior Services, Bureau of Community Health and Wellness, 12/1/2022-4/28/2024, 10% effort, \$178,769

BHWP is providing technical assistance and training to Missouri primary health care and behavioral health care facilities to reduce tobacco use and dependence-related disparities among populations with higher prevalence of tobacco use and exposure to secondhand smoke through the adoption and implementation of evidence-based nicotine addiction treatment and tobacco-free campus policies as a standard of care. We are assisting the state health department in engaging healthcare champions in web-based Communities of Practice (CoP). BHWP is utilizing a structured CoP learning environment, combining six (6) didactic webinars by subject matter experts, six (6) companion peer-based learning sessions, and personalized technical assistance to participating behavioral health and primary health care facilities.

“Staff Work and Well-Being Initiative”

Principal Investigator, Contracts with Chestnut Health Systems, Texas Panhandle Centers, Egyptian Public Health, and Community Alliance, 2/1/2022-9/30/2023, 10% effort, \$426,016

BHWP is providing staff wellness consultation and programming to four large behavior health or public health systems that were awarded SAMHSA Community Mental Health Center (CMHC) Grants (FOA No. SM-21-014). As a component of these grants and in partnership with BHWP, the agencies need to develop a comprehensive workplace wellness program which includes an onsite environmental scan, administration

of the Workplace Wellness Survey, technical assistance to agency senior leadership and champions, community of practice facilitation, and all-staff wellness trainings.

“National Behavioral Health Network for Tobacco & Cancer Control” contract 2405.0002

Co-Principal Investigator, the Centers for Disease Control and Prevention (CDC), Office of Smoking and Health and the Division of Cancer Prevention and Control, 10/01/2013-9/30/2023, 10% effort, \$691,000
The Behavioral Health & Wellness Program partners with the National Council for Behavioral Health, Smoking Cessation Leadership Center at the University of California- San Francisco, and Centerstone Research Institute to provide a national CDC network to reduce tobacco use and cancer and to address health disparities in the behavioral health population. Together the partners provide evidence-based approaches to prevent tobacco use and cancer, through technical assistance, education, training, and networking opportunities that complement other CDC-funded chronic disease program activities.

“Motivational Interviewing and Wellness Training” project 520035

Principal Investigator, University of Colorado School of Medicine UPL, 7/1/2019-6/30/2023, 10% effort, \$799,405

A contract to train UHealth system, School of Medicine, and interdisciplinary providers statewide serving Medicaid and health disparity populations. BHWP provides training on Motivational Interviewing and whole health services. Trainings are instrumental in assisting providers to engage patients in care and expand Colorado healthcare providers utilization of evidence-based wellness services for the state's most vulnerable populations. This innovative programming provides training on strategies for tobacco/nicotine cessation, medication assisted treatment (MAT), nutrition, physical activity, healthy sleep, decreased stress, workplace wellness, and increased vaccination rates, with an explicit focus on promoting positive behavior change through motivational engagement and behavior change strategies.

“COVID-19 Vaccine Hesitancy Program for Kids” agreement 2022*2607

Principal Investigator, Colorado Department of Public Health and Environment, 10/1/21-6/30/22, 10% effort, \$73,028

A project to create a communication and training platform to be used throughout the State of Colorado to assist health care providers in conversations with youth and parents of young children s regarding COVID-19 vaccinations. The selected communications strategies will be used to develop training materials for healthcare providers, community immunization champions, and school healthcare clinics. Synthesizing the evidence base, The Protect Me You Us Kids consists of a series of brief Motivational Interviewing video modules created to assist interdisciplinary providers to have effective conversations that reduce vaccine hesitancy.

“Cessation and Health Systems Change Training and Technical Assistance for Grantees” contract 19 FHLA 110238

Principal Investigator, Colorado Department of Public Health and Environment, Tobacco Prevention and Cessation Grant Program, 7/01/2018-6/30/2023, 15% effort, \$1,262,131

A partnership with the State of Colorado to improve health through evidence-based, culturally responsive strategies that prevent, postpone, and treat chronic disease; Improve health promotion and prevention policy; Transform health care delivery; and Integrate community and clinical care prevention efforts. To accomplish these aims, BHWP provides technical assistance and training to State Tobacco Education and Prevention Partnership (STEPP) community grantees working to increase tobacco cessation, reduce initiation of tobacco use, decrease tobacco prevalence among youth, and decrease exposure to secondhand smoke.

“Health Systems Change, Cessation Treatment and Environmental Change for Mental Health and Priority Populations” contract 19 FHLA 110232

Principal Investigator, Colorado Department of Public Health and Environment, Tobacco Prevention and Cessation Grant Program, 7/01/2018-6/30/2023, 10% effort, \$1,173,163

This public health project serves to improve public health through evidence-based, culturally responsive strategies that transform health care delivery and integrate tobacco cessation into community/clinical care prevention efforts through a multipronged approach including technical assistance, and capacity building to promote health systems change, tobacco cessation treatment, environmental change for behavioral health/priority populations. The project training component consists of topics such as Motivational Interviewing, medication assisted treatment (MAT) for tobacco cessation, psychoeducation group curricula, and tobacco-free policies. As a component of this work, BHWP has created a model tobacco free policy for behavioral health and healthcare agencies and is working with statewide agencies to integrate tobacco-free strategies into clinical workflows.

“Arizona Tobacco Control” contract CTR040291

Principal Investigator, Arizona Department of Health Services and Maricopa County Department of Public Health, 6/1/2017-6/30/2023, 15% effort, \$580,157

BHWP assists the State of Arizona to meet the tobacco cessation needs of Arizona’s tobacco users, with specific attention paid to priority populations. Individuals involved with Arizona’s criminal justice system is a specific population of focus. BHWP provides consultation, technical assistance, and training for the Arizona Department of Health Services and local public health agency grantees that have chosen the justice involved population as a target health disparity population. BHWP has also piloted peer-run tobacco cessation services for the Arizona Department of Corrections. Project aims are accomplished through virtual and onsite peer-based communities of practice, individualized strategic planning, evidence-based webinars, and training on DIMENSIONS curricula.

“Motivational Interviewing for Vaccine Hesitancy” professional services agreement

Principal Investigator, Colorado Access, 1/15/21-3/31/23, 10% effort, \$122,544

BHWP shall provide consultation and a series of training with the aim of increasing effective communication and which assists the Colorado Access care management team and its healthcare provider network to increase member COVID-19 vaccination rates. BHWP will address common barriers and facilitators to COVID-19 vaccinations, and trainings will also be informed by “real-world” experiences solicited from Colorado Access care managers. BHWP develops provider briefs on evidence-based practices for overcoming COVID-19 vaccine hesitancy among adults, parents, children, and young adults. Subsequent Protect Me You Us, overcoming vaccine hesitancy trainings, are provided to Colorado Access staff and community partner agencies.

“The Three Cs: Consistent, Confident, Concise Recommendations for Adolescent Vaccines” professional services agreement

Principal Investigator, Unity Consortium, 9/1/22-6/30/23, 5% effort, \$60,069

A video series update for healthcare providers facing new challenges from the COVID-19 Pandemic. BHWP has created high- quality video vignettes depicting eight scenarios of effective vaccine discussions, four for ages 9-12 and four for older adolescents ages 16-18. Scenarios will vary, for example, by parental response and vaccination beliefs. The vignettes will be added to Unity’s 3Cs online archive and will be available nationally as component stand-alone videos and presented as a collection.

“National Jewish Health Quitline Consultation” professional services agreement

Principal Investigator, National Jewish Health- Health Initiatives, 1/1/21-6/30/23, 2% effort, \$28,462

BHWP will provide training for NJH staff on tailoring telephonic and other services to individuals who live in rural areas. Also, BHWP will oversee evaluation of using live texting technology to enhance reach and provide training for NJH staff on utilizing such technology innovation for rural areas.

Completed Grants and Contracts

“Denver-Prevention Research Center COVID-19 Vaccine Hesitancy Supplement” CDC-RFA-DP19-001

(Leiferman, Puma) Co-Investigator, the Centers for Disease Control and Prevention (CDC), 5/01/2021-5/10/2022, 5% effort, \$87,715 subcontract

The overarching goal of the proposed project is to ensure high uptake of the COVID-19 vaccines in rural areas of Colorado by utilizing CDC's Vaccinate with Confidence Strategy for COVID-19 vaccines, which emphasizes the need to: 1) build trust in the vaccine, the vaccinator, and the health system; 2) empower healthcare personnel; and 3) engage communities and individuals. We are implementing and evaluating evidenced-based, multi-level behavioral interventions that will increase vaccine access and reduce vaccine hesitancy. BHWP has further provided Protect Me You Us, Motivational Interviewing based trainings to healthcare, public health, and other community agency staff.

"Tobacco Cessation Services for the County of Los Angeles" contract PO-PH-22006223-1

Principal Investigator, Los Angeles County Public Health, 10/28/2021-12/31/2021, 20% effort, \$98,000

An initiative to instruct Los Angeles County behavioral health and health care providers on evidenced-based clinical practice information and clinical skills required to meet current professional practice standards in tobacco cessation. BHWP provides training on its DIMENSIONS curricula, peer-based communities of practice, and individualized technical assistance to transform health care delivery and assist community agencies to create, integrate, and operate efficient tobacco cessation workflows.

"Addressing the Whole Health of Low-SES Families: A Novel Approach to Tobacco Treatment" contract 19 FHLA 109722

Principal Investigator, Colorado Department of Public Health and Environment, Tobacco Prevention and Cessation Grant Program, 7/01/2018-12/31/2021, 8% effort, \$507,438

RAISE Families for Health is an evidence-based curriculum designed to interrupt intergenerational cycles of poor health and disease. RAISE served to improve public health by addressing factors leading to health disparities among families living in poverty. This was accomplished by implementing programming at Sheridan Health Services for parents/caregivers in the Sheridan community of Denver which was designed to: Address tobacco cessation in the context of an educational and support program focused on whole-health behavior change; and Provide supportive, group-based or one-on-one health and wellness programming, including educational and motivational activities, tailored to the particular challenges facing low-resourced, underserved parents raising children. Over three years, RAISE was piloted in-person and virtually at an integrated care clinic, as well as two community agencies serving at-risk families.

"Rural State Quitline Caller Evaluation and Training" professional Services agreement

Principal Investigator, National Jewish Health, 9/01/2019-12/1/2021, 5% effort, \$75,649

A contract to provide an evaluation of quitline experiences among persons living in rural areas that also smoke. A review of the salient literature was complemented by a multi-state survey of current quitline users, the perspectives of national experts, and the findings from focus groups of individuals living in rural areas who have called the quitline, as well as those who have never used quitline services. The evaluation assisted National Jewish Health (NJH) and quitline funders from multiple states to better understand the barriers and facilitators to engaging and sustaining rural smokers in quitline services. Additionally, NJH call staff will be trained in Motivational Interviewing strategies, with an emphasis on rural callers' issues.

"RAISE Families for Health" grant 20-GRP-UCRP

Principal Investigator, Larimer County Behavioral Health Services, 10/15/20-9/30/21, 5% effort, \$91,416

The project aim was to increase health equity and build family resilience by providing training and ongoing technical assistance to two community service agencies on the RAISE Families for Health curriculum. RAISE offers at-risk caregivers evidence-based strategies for behavior change including coping with stress, healthy sleep, healthy eating, physical activity, and tobacco-free environments.

"COVID-19 Vaccine Hesitancy Program for Adults" contract 2021*3302

Principal Investigator, Colorado Department of Public Health and Environment, 1/10/21-6/30/21, 10% effort, \$70,406

The Protect Me You Us initiative was funded to create a communication and training plan to be used throughout the State of Colorado to assist health care providers in conversations with adult patients regarding COVID-19 vaccinations. Developed video modules assisted statewide health care providers in understanding how to reach patients with effective, tailored messaging about the COVID-19 vaccine. The project emphasized reducing vaccine hesitancy among at-risk populations including African American and Latinx communities.

“Tobacco Cessation Services for the County of Los Angeles”

Principal Investigator, Los Angeles County Public Health, 7/1/2020-6/30/2021, 5% effort, \$99,190

An initiative to instruct health care providers on evidenced-based clinical practice information and clinical skills required to meet current professional practice standards in tobacco cessation. BHWP will also provide training to transform health care delivery by providing the skills and knowledge necessary to create, integrate, and operate an efficient tobacco cessation workflow as a part of our current patient care delivery system within the LA County Health Agency.

“Washington State Opioid Treatment Network Tobacco Cessation Training”

Principal Investigator, Washington State Health Department, 7/01/2019-9/29/20, 5% effort, \$170,130

A contract to provide a Tobacco Treatment Specialist training and a Fundamentals-Tobacco Free Training to providers working in the Washington State Opioid Treatment Networks and Hub & Spoke Networks.

“Colorado Access Consultation”

Principal Investigator, Colorado Access, 7/01/19-12/31/19, 25% effort, \$75,000

A contract to provide quality assessment and performance improvement consultation to Colorado Access Health Strategy and Quality Improvement leadership.

“Tobacco Free Florida – The Journey Starts Here”

Principal Investigator, Florida Department of Health (through the Suwanee River Area Health Education Center), 2/1/2017-4/30/2019, 10% effort, \$315,481

BHWP provides consultation and training to assist in creating the Bureau of Tobacco Free Florida’s strategic plan and programming to address the needs of tobacco users with mental illnesses and addictions.

“It Takes a Library”

Principal Investigator, Colorado Mental Wellness Network, 2/1/2017- 6/30/18, 5% effort, \$160,000

A partnership with the Colorado Department of Human Services, Denver Public Library (DPL) and the Colorado Mental Wellness Network to pilot a community service model in which formerly homeless persons, or “peers,” are hired and trained to assist at-risk DPL visitors with benefits and services. BHWP provides the program evaluation for this innovative project.

“Cessation and Health Systems Change Training and Technical Assistance for Grantees”

Principal Investigator, Colorado Department of Public Health and Environment, Tobacco Prevention and Cessation Grant Program, 7/01/2015-6/30/2018, 20% effort, \$750,000

A grant to provide technical assistance and training to approximately 30 agencies receiving CDPHE tobacco cessation grants across Colorado.

“Health Systems Change, Cessation Treatment and Environmental Change for Mental Health and Priority Populations”

Principal Investigator, Colorado Department of Public Health and Environment, Tobacco Prevention and Cessation Grant Program, 7/01/2015-6/30/2018, 20% effort, \$750,000

We will create partnerships with local and regional behavioral health providers and utilize train-the-trainer models and resources to extend the reach of evidence-based tobacco cessation services.

“Collective Impact for High Public Service Utilizers”

Principal Investigator, Colorado Department of Public Health & Environment Health Disparities Grant Program (RFA #1237), 7/01/2015-6/30/2018, 12% effort, \$750,000

A partnership with the Metro Denver Homelessness Initiative (MDHI), Jefferson County Public Health, Boulder Public Health, and Denver Public Health to address the cancer screening and healthy living needs of persons who are low income or living in poverty, have chronic care issues, struggle with behavioral health conditions, are homeless or at risk of homelessness, and often are involved in the criminal justice system.

“The Build a Clinic Program”

Principal Investigator, Pfizer Independent Grants for Learning and Change (IGLC), 1/1/2016-5/30/2017, 5% effort, \$200,000

We will recruit and train two cohorts of 10-15 integrated primary care clinics operating in rural or medically underserved areas ready to add or augment tobacco cessation services and supports into existing clinical practice. Participants in each cohort will partake in six, monthly webinars; six, monthly collaborative learning activities, and receive 3 hours of one-on-one tailored technical assistance. Collectively the six, themed webinars and collaborative learning activities will comprise a comprehensive series on the skills and knowledge necessary to create, integrate, and operate an efficient tobacco cessation workflow within normal clinic operations.

“Rocky Mountain Tobacco Treatment Specialist Certification Program Training”

Principal Investigator, The University of Texas at Austin, Tobacco Research and Evaluation Team, June 2016, 5% effort, \$78,913

Conducted an interactive, 4-day training experience focused on providing the necessary knowledge, clinical skills, and evidence-based treatment strategies to effectively treat tobacco dependence. This program facilitated mastery of the ATTUD Core Competencies Skill Sets. On the fourth day, participants completed a comprehensive exam for certification.

“In Pursuit of the 3 Cs: Confident, Concise and Consistent Health Care Provider Recommendations for Adolescent Vaccinations”

Principal Site Investigator, 11/1/2015-6/30/2016, 5% effort, Unity Consortium, \$58,095

The specific aims of this implementation study are to assess baseline adolescent levels at the 11-12 year and 16-year old adolescent visits, develop a provider motivational interviewing training to include a demonstration video, on-site training and practice, and three individualized coaching sessions; and implement and assess the impact of the training on adolescent vaccine utilization.

“Wellness Recovery Learning Community”

Co-Principal Investigator, Pfizer Independent Grants for Learning and Change (IGLC) and the Smoking Cessation Leadership Center (SCLC) at the University of California, San Francisco, 4/15/2015-4/14/2016, 15% effort, \$75,000 subcontract

To address and eliminate these disparities, the National Council for Behavioral Health in partnership with the Behavioral Health & Wellness Program will lead the design, implementation and evaluation of the *Wellness and Recovery Learning Community* which will improve the overall health of people with substance use disorders in the state of Florida by improving tobacco prevention and cessation efforts in seven substance use treatment agencies; and strengthening cross-systems collaboration.

“Cessation and Health Systems Change Training and Technical Assistance for Grantees”

Principal Investigator, Colorado Department of Public Health and Environment, Tobacco Prevention and Cessation Grant Program, 7/01/2015-6/30/2018, 20% effort, \$750,000

A grant to provide technical assistance and training to approximately 30 agencies receiving CDPHE tobacco cessation grants across Colorado.

“Health Systems Change, Cessation Treatment and Environmental Change for Mental Health and Priority Populations”

Principal Investigator, Colorado Department of Public Health and Environment, Tobacco Prevention and Cessation Grant Program, 7/01/2015-6/30/2018, 20% effort, \$750,000

We will create partnerships with local and regional behavioral health providers and utilize train-the-trainer models and resources to extend the reach of evidence-based tobacco cessation services.

“Collective Impact for High Public Service Utilizers”

Principal Investigator, Colorado Department of Public Health & Environment Health Disparities Grant Program (RFA #1237), 7/01/2015-6/30/2018, 12% effort, \$750,000

A partnership with the Metro Denver Homelessness Initiative (MDHI), Jefferson County Public Health, Boulder Public Health, and Denver Public Health to address the cancer screening and healthy living needs of persons who are low income or living in poverty, have chronic care issues, struggle with behavioral health conditions, are homeless or at risk of homelessness, and often are involved in the criminal justice system.

“National Jewish Health QuitLine Research”

Principal Investigator, National Jewish Health, Health Initiatives Programs, 9/01/2014-8/31/2015, 5% effort, \$110,000

Research consultation to National Jewish Health to leverage extensive data collected at NJH to identify trends, outcomes, and opportunities for improvement in programs and services. Research was completed for smokers from priority populations including persons with behavioral health conditions, American Indians, and tobacco users who are LGBT.

“Tobacco Interventions for Persons with Behavioral Health Disorders Tobacco Education”

Principal Investigator, Colorado Department of Public Health and Environment, Prevention and Cessation Grant Program, Project Number 13 TEPCGP A35 0224, 10/01/2012-6/30/15, 20% effort, \$1,144,301

A grant to assess evidence-based tobacco control programming for behavioral health agencies statewide and to provide technical assistance and training to these agencies on integration of tobacco cessation into daily healthcare practice. Toolkits and other practical resources will be created and disseminated.

“Well Body Programming for Persons with Behavioral Health Disorders

Principal Investigator, Colorado Department of Public Health and Environment, Health Disparities Grant, Project Number 13 HD A35 0223, 10/01/2012-6/30/15, 20% effort, \$646,358

A grant to assess evidence-based weight management and nutrition programming for behavioral health agencies statewide and to provide technical assistance and training to these agencies on integration of weight management and nutrition into daily healthcare practice. Toolkits and other practical resources will be created and disseminated.

“Cessation and Health Systems Change Training and Technical Assistance”

Principal Investigator, Colorado Department of Public Health and Environment, State Tobacco Education and Prevention Partnership Grant Program, Technical Assistance Request for Applications, 10/01/2012-6/30/15, 20% effort, \$749,543

A grant to provide tobacco cessation training and technical assistance to CDPHE tobacco grantees through statewide assessment, regional trainings, agency consultation, and development and dissemination of practical resources.

“Tobacco Cessation for Persons with Mental Illnesses”

Principal Investigator, University of California, San Francisco- Smoking Cessation Leadership Center/Robert Wood Johnson Foundation, 3/1/08-7/31/15, 10% effort, \$185,692

National technical assistance, training, and translational research on increasing smoking cessation rates among persons with mental illnesses and addictions and increase the number of health care professionals and health care institutions who offer evidence-based tobacco control strategies.

“A Tobacco Cessation Continuity-of-Care Model for the Re-Entry Population”

Principal Investigator, University of California Smoking Cessation Leadership Center and Pfizer Medical Education System. Grant 044352, 2/1/2013 – 12/31/14, 15% effort, \$100,000

The University of Colorado, Behavioral Health & Wellness Program is partnering with the Colorado Governor’s Office, Department of Corrections, prison and jail reentry programs, and Substance Abuse and Mental Health Services Administration (SAMHSA) to create innovative tobacco cessation programming for offenders re-entering the community.

“Tobacco Recovery and Wellness for the Behavioral Health Community”

Principal Investigator, University of California Smoking Cessation Leadership Center and Pfizer Medical Education System. Grant 044150, 2/1/2013 – 12/31/14, 15% effort, \$200,000

The University of Colorado, Behavioral Health & Wellness Program will partner with the National Council for Community Behavioral Healthcare to help peers, providers, and behavioral healthcare agencies build practical tobacco cessation skills and sustained organizational steps tobacco control.

“A3051123- A3051148 Varenicline Tartrate Clinical Trial for Smokers with and without Psychiatric Disorders”

Principal Investigator, Pfizer, 10/1/11-10/1/14, 15% effort, \$490,115

A phase 4 randomized, double-blind, active and placebo controlled, multicenter study to assess varenicline as an aid smoking cessation treatment in subjects with and without a psychiatric diagnosis. We compared the relative neuropsychiatric safety risk and efficacy of varenicline and bupropion with nicotine patch and placebo in smokers with and without psychiatric disorders.

“Evidence-Based Wellness Practice, Technical Assistance and Training”

Principal Investigator, SAMHSA-HRSA National Council for Community Behavioral Healthcare, Center for Integrated Healthcare Solutions, 5/1/11-11/1/13, 10% effort, \$150,000

Training and technical assistance to 92 national Primary and Behavioral Health Care Integration (PBHCI) Program grantees. Organizational assessments, individualized site reporting, regional trainings, and webinars were provided.

“A3051122- Varenicline Tartrate Clinical Trial for Smokers with Depression”

Principal Investigator, Pfizer, 4/1/10-6/1/12, 15% effort, \$549,414

A phase 4 randomized, double-blind, active and placebo controlled, multicenter study to assess varenicline as an aid smoking cessation treatment in subjects with diagnoses depression

“Reducing Health-Related Tobacco Disparities for Persons with Mental Illnesses”

Principal Investigator, Colorado Department of Public Health and the Environment, State Tobacco Education and Prevention Program Competitive Grant, 10/1/08-10/1/2012, 40% effort, \$1,050,000

Implementation and dissemination of evidence-based efforts to assist tobacco cessation among persons with mental illnesses. Efforts include developing smoke free campuses, reimbursement public policy, and provider and peer training.

“Protecting Individuals from Secondhand Smoke in Multi-Unit Housing”

Principal Investigator, Colorado Department of Public Health and Environment, Tobacco-Free Colorado Communities Initiative, Tobacco Education, Prevention and Cessation Grant Program, 11/1/2010-06/30/2012, 10% effort, \$222,337

Statewide technical assistance and training to assist behavioral health agencies to implement tobacco cessation policies in residential treatment settings.

“CDC National Training and Technical Assistance”

Principal Investigator, American Recovery and Reinvestment Act (ARRA) of 2009 Communities Putting Prevention to Work RFA-DP09-91202SUPP10 Supplemental Funding to Support Community Mentoring, Technical Assistance and Training, 6/1/10-3/1/12, 10% effort, \$126,787
CDC grant administered by the Los Angeles Department of Health to extend state innovations to other CDC grantee sites. Provided national training and technical assistance on evidence-based tobacco control strategies to these grantees.

“A Needs Assessment for Persons with Behavioral Health and Weight Control Issues”

Principal Investigator, Colorado Clinical and Translational Sciences Institute, 1/1/2010-1/1/2011, 5% effort, \$30,000
Qualitative statewide exploration of the weight control needs of persons served by the public behavioral healthcare system.

“The UCD Postdoctoral Fellowship for Administration and Evaluation Psychology”

Director, Contract with 2-4 Consortium Sites Annually, 10/1/00-9/31/11, 15% effort, \$1,320,000
This reality-based program was developed in 1992 to give psychologists the skill set they needed to become effective leaders, administrators, researchers and evaluators in community systems of care.

“Colorado Division of Behavioral Health Program and Policy Consultation”

Consultant, (Principal- Chad Morris, PhD), Annual contract between the Colorado Division of Behavioral Health and University of Colorado, Behavioral Health & Wellness Program, 7/1/01-6/30/11, 20% effort, \$400,000
Consultation including development of policies, standards, rules and regulations; planning, contracting and allocation of resources. Administered over 5 million dollars in statewide programs for the SAMHSA, Center for Mental Health Services “New Freedom Initiative- State Coalitions to Promote Community-Based Care (Olmstead) Grant” and “Projects for Assistance in Transition from Homelessness (PATH) Grant”.

“A3051072- Varenicline Tartrate Clinical Trial for Persons with Psychotic Disorders”

Principal Investigator, Pfizer, 3/1/08-12/1/09, 10% effort, \$272,936
A phase 3B 12-week, double-blind, placebo-controlled, multicenter study evaluating the safety and efficacy of varenicline tartrate for smoking cessation in subjects with diagnosed schizophrenia and schizoaffective disorder.

“Smoking Cessation among Latinos in Primary Care”

Sub Investigator, (PI, J. Waxmonsky, University of Colorado), National Cancer Institute grant 3U01CA114604-03S2, 1/1/08-6/1/09, 7% effort, \$50,000
Administered focus groups with Latinos with diagnosed depression to determine how to translate existing resources to maximize smoking cessation efforts with this population.

“Development of a State Wellness Model”

Principal Investigator, Colorado Department of Health Care Policy and Financing, Colorado Child Healthcare Plan Plus, 6/1/2010-12/31/2010, 15% effort, \$15,000
Consultation to assist the Department to move to a wellness-oriented model of health care delivery, including incorporating the following measures into state health plan contracts: tobacco cessation, mental health, functional independence and self-sufficiency, and obesity prevention.

“Reducing Health-Related Tobacco Disparities for Persons with Mental Illnesses”

Principal Investigator, Colorado Department of Public Health and the Environment, State Tobacco Education and Prevention Program Competitive Grant, 10/1/08-10/1/2010, 40% effort, \$790,000

Implementation and dissemination of efforts to assist tobacco cessation among persons with mental illnesses. Efforts include developing smoke free campuses, reimbursement public policy, provider training, interventions across the lifespan, and peer-to-peer services.

“Reducing Health-Related Tobacco Disparities for Youth with Mental Illnesses”

Principal Investigator, Colorado Department of Public Health and the Environment, State Tobacco Education and Prevention Program Competitive Grant, 1/25/08-9/30/08, 10% effort, \$100,000

This pilot project will investigate how to serve the tobacco control needs of youth with mental illnesses utilizing statewide focus groups and key informants. Results will guide the development of future community pilot programs.

“Reducing Health-Related Tobacco Disparities for Persons with Mental Illnesses”

Principal Investigator, Colorado Department of Public Health and the Environment, State Tobacco Education and Prevention Program Competitive Grant, 10/1/06-9/30/08, 45% effort, \$630,000

A 2-year randomized effectiveness study of tobacco cessation strategies for persons with mental illnesses. This is a community-based effort in partnership with National Jewish Medical and Research Center and 4 statewide community mental health centers and clinics.

“Family Focused Therapy of Adolescents with Bipolar Disorder”

Psychologist, (PI, D. Miklowitz, University of Colorado at Boulder), multiple grants from NIMH, 7/1/02-12/31/06, 9% effort, \$32,000

This study is developing and standardizing a version of family-focused psychoeducational treatment (FFT) that is sensitive to the developmental requirements of adolescent bipolar I disorder patients and testing its efficacy with pharmacotherapy at multiple centers of expertise in adult and pediatric-onset bipolar disorders.

“Community Integration Technical Assistance to the Territory of Guam”

Principal Consultant, Guam, Office of Community Integration, Governor’s Office, 12/1/04-12/31/06, 20% effort, \$115,000

Consultation to assist Guam to provide individuals with disabilities the highest quality services in the least restrictive settings possible. Satisfying the Permanent Injunction (J.C. v. Camacho) was the initial focus of consultation. This work was followed by plans and implementation for Minimum Care Standards and Comprehensive Community Supports and Services. Six University of Colorado postdoctoral fellows and a psychiatry resident assisted with consultation onsite in Micronesia as well as off-site work.

“Federated States of Micronesia Technical Assistance”

Principal Consultant, Substance Abuse and Mental Health Services Administration (SAMHSA) and National Association of State Mental Health Program Directors (NASMHPD), 2/1/06-3/31/06, 20% effort, \$5,000

Technical assistance was provided to the Federated States of Micronesia (FSM) Substance Abuse and Mental Health Program (SAMH) and Department of Health, Education and Social Affairs. Consultants assisted FSM to prioritize health system goals given local strengths and challenges and to then develop action steps. A University of Colorado psychiatric resident joined the consultation team as a component of his professional development.

“Consumer Directed Attendant Support Program (CDAS)”

Consultant, Colorado Department of Health Care Policy and Financing, 1/15/03-10/1/06, 10% effort, \$33,000

The CDAS program was mandated by the Colorado legislature and approved by the Centers for Medicare and Medicaid Services (CMS) as an 1115 demonstration waiver in August of 2001. The program was implemented to increase the independence and self-sufficiency of participants, improve the quality of attendant support that participants receive and decrease the cost to the state for providing attendant

services. Consultation duties included designing and assisting with the implementation of the CDAS program evaluation.

“Eliminating Tobacco-Related Disparities within the Priority Population of Persons with Mental Illnesses”

Principal Investigator, Colorado Department of Public Health and the Environment, State Tobacco Education and Prevention Program Competitive Grant, 1/1/06-9/30/06, 25% effort, \$152,000
Developed a practical, low burden tobacco cessation toolkit for mental health providers, which is being distributed nationally. An extensive literature review, current evidence based practices, and input from mental health consumers and providers informed the toolkit’s development. Mental health consumer and provider participation was incorporated through a series of 10 statewide focus groups.

“Colorado Access Care Management Programs”

Consultant, ColoradoAccess, 7/1/05-7/31/06, 45% effort, \$70,000
Consultation was provided on creating a chronic care model for bipolar disorder, as well as other chronic health conditions. Duties included scientific review, protocol development, development of patient materials, creation of assessments and databases, and supervision of relevant Colorado Access staff.

“Bipolar Illness Therapy, Family Burden, Costs & Health”

Consultant, (PI, D. Perlick, Yale University), RO1 grant from NIMH, 7/1/02-12/31/04, 10% effort, \$32,000
An ancillary study to the Systematic Treatment Enhancement Project for Bipolar Disorder (STEP-BD). This study tests the effects of bipolar disorder on the emotional burdens and adverse health and economic outcomes of caretaking relatives.

“Program Evaluation of the Mental Health Ombuds Program of Colorado”

Principal Investigator, The Colorado Behavioral Healthcare Council, the Mental Health Ombuds Program of Colorado, the Rose Community Foundation, Eli Lilly and Company, and the Colorado Division of Mental Health, 7/1/02-12/31/03, 30% effort, \$66,000
The Mental Health Ombuds Program of Colorado (MHOPC) is a non-profit 501(c)(3) agency with a mission to provide advocacy, assistance, and education to Medicaid-eligible mental health consumers. We evaluated how well MHOPC was accomplishing its mission and goals, the community impacts of the program, and opportunities to improve the program.

“Utah Department of Mental Health, Community-Based Planning”

Consultant, the TriWest Group, 1/15/02-9/15/02, 10% effort, \$10,000
Consultation involved recommendations for assessment tools and protocols to assess readiness for discharge, and assistance in drafting state plans to support the Utah Division of Substance Abuse and Mental Health’s efforts to serve individuals with mental illnesses in the least restrictive settings possible.

“Needs Assessment for Tobacco Control in Persons with Mental Illnesses”

Co-Investigator, (PI, A. Giese, University of Colorado), the Colorado Department of Public Health and the Environment, State Tobacco Education and Prevention Program, 7/1/01-6/30/02, 25% effort, \$50,000
This evaluation identified the tobacco control needs of adults with mental illnesses. Assessment findings and recommendations are based upon multiple evaluation methods including literature reviews, state data, key informant interviews, focus groups, and web-based survey.

“Systematic Treatment Enhancement Program for Bipolar Disorder (STEP-BD)”

Co-Investigator (Colorado Site), Standard Care Pathway and Ancillary Studies, (PI, G. Sachs, Massachusetts General Hospital, Harvard Medical School), NIMH, 1/1/2001-1/1/2003, 50% effort, salary support
A multi-site treatment study to examine the effectiveness in real-world settings of different forms of pharmacological and psychosocial interventions for bipolar disorder. The University of Colorado was one site of this multi-site project. Assisted in the coordination and clinical assessment for the site study.

Additional Funded Technical Assistance, Training and Consultation Contracts (2006-present)

Alaska Tobacco Prevention and Control, Juneau, Alaska
American Lung Association, Chicago, Illinois
Anthem (National)
